

**Chương trình Phát triển nguồn nhân lực kỹ thuật tại Đồng Nai**  
*Manufacturing Human Resource Development Program in Dong Nai*  
(Thực hiện tại DCoHT do JICA hỗ trợ thông qua DIZA và PREX)

It is a great honour to invite the distinguished enterprises and students to join 3S-Safety Training Course at 28 hours

**Why do we have to do training?**

- ✓ Safety is our priority. Losing safety is losing your time, money and prestige; especially the risks of labour's health.
- ✓ This course is held to make sure both safety standards and working productivity.

**Who are attendees?**

- ✓ The first-year and second-year students in all fields (tuition-free)
- ✓ 3S –Safety supervisors and workers in Enterprises
- ✓ Anyone has demand to join.

**Curriculum**

1. Introduction of 3S/5S
2. To be Improve (Kaizen)
3. Analysis of complications
4. Risk assessments
5. KYT
6. Safety when using Electric
7. Safety Mechanical
8. Safety Chemical

**Teachers**

With many years experiencing in training and working in engineering, electricity, chemicals, food safety; our teachers are trained and issued the pedagogic certificates by Ministry of labor and food safety. Especially, they have attended the consecutive training course of JICA project about 3S-Safety in Osaka, Japan continuously since 2014.

Eng. Vũ Hồng Bắc
